Warrant for Town Meeting

JANUARY 11, 1905.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To John W. Crisp, a Constable of the town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and town affairs, to meet at the town hall in said town on Wednesday, the eleventh day of January next, at eight o'clock in the afternoon, then and there to act upon the following articles, viz:

ARTICLE 1. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary to cover any deficiencies that may appear in the appropriations for the fiscal year ending December 31st, 1904.

ARTICLE 2. To see what action the town will take in regard to unexpended balances.

ARTICLE 3. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary to carry on the several departments of the town for the re-

mainder of the municipal year ending March 6th, 1905.

ARTICLE 4. To see if the town will appoint a committee to consider the estimates for the annual appropriations.

ARTICLE 5. To see if the town will accept Conant street as laid out by the selectmen.

ARTICLE 6. To see if the town will accept Alfreton road as laid out by the selectmen.

ARTICLE 7. To see if the town will instruct the Water Commissioners to petition the General Court for authority to issue additional water bonds.

ARTICLE 8. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all appropriations asked for, or proposed by, the selectmen or by any town officers or committee.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town, at least seven days before the time of said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, unto our town clerk, on or before said day and time.

Given under our hands at Needham aforesaid, this, the twenty-eighth day of December, A. D. nineteen hundred and four.

OFFICER'S RETURN

NORFOLK, ss.

NEEDHAM, January 3, 1905.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham to meet as within directed, by posting true and attested copies of this warrant in twenty public places in said town, more than seven days before the time of holding said meeting.

JOHN W. CRISP,
Constable of Needham.

A true copy of warrant and officer's return,

Attest:

THOMAS SUTTON,
Town Clerk.

Record of Town Meeting

JANUARY 11, 1905.

Pursuant to the foregoing warrant a meeting of the inhabitants of the town of Needham qualified to vote in elections and in town affairs, was held in the town hall in said town, on Wednesday, January 11, A. D. 1905, at eight o'clock in the afternoon.

The meeting was called to order by the moderator and the warrant for calling said meeting and the return of the officer who notified and warned the inhabitants was read by the town clerk.

ARTICLE 1. Voted that the sum of fifteen hundred dollars ($1500), be appropriated to pay the deficiencies on unpaid bills to Dec. 31, 1904.

Voted that of the fifteen hundred dollars appropriated under this article, one thousand dollars be taken from money in the treasury not otherwise appropriated.

ART. 2. Voted that the unexpended balances in appropriations for the year 1904 be turned into the treasury, except those in the water department, which shall be continued.

ART. 3. Voted that the following sums of money be appropriated for carrying on the several departments of

the town for the remainder of the municipal year ending March 6, 1905.

For the relief and support of the poor, five hundred dollars ($500).

For the removal of snow, eight hundred dollars ($800).

For printing and stationery, five hundred dollars ($500).

For the construction, maintenance and repairs of highways, townways and bridges, four hundred dollars ($400).

For street lighting, one thousand dollars ($1,000).

For maintenance of the fire department, two hundred dollars ($200).

For incidentals of the fire department, fifty dollars ($50).

For the care and maintenance of the town hall, three hundred dollars ($300).

For state aid, one hundred and fifty dollars ($150).

For soldiers' relief, one hundred dollars ($100).

For fire alarm service, one hundred dollars ($100).

For police service, five hundred dollars ($500).

For salaries of town officers, two hundred dollars ($200).

For Mrs. Mary A. Murphy, as per agreement, the same to be paid when due, eighty-two dollars and fifty cents ($82.50).

For incidental expenses, six hundred and fifty dollars ($650).

For the maintenance of schools, four thousand dollars ($4,000).

Voted, that the sum of two hundred and fifty dollars ($250) be appropriated for the use of the public library, one hundred dollars of this amount to be expended for furnishings and equipment.

Voted, that the sum of five hundred dollars ($500) be

appropriated for the moving of the stone crusher to Hewett's pit for the purpose of crushing and clearing up all rocks strewn on the premises, as per verbal agreement with the superintendent of streets.

ART. 4. Voted, that five citizens from the various sections of the town be appointed by the moderator, who, together with the chairman of the selectmen, the chairman of the school committee, the chairman of the water commissioners, and the chairman of the park commissioners, shall constitute a committee to consider the estimates for the annual appropriations for the year 1905; said committee to be called together as soon as convenient by the chairman of the selectmen for organization. The committee to give one or more public hearings and to furnish the auditor with a complete list of their recommendations in season for printing in the annual town report for 1904.

The moderator appointed Henry D. Blackman, Theodore McIntosh, John E. Buckley, William Gorse, and Rodman P. Snelling.

ART. 5. Voted that Conant street be accepted as laid out by the selectmen, in accordance with a plan and description on file with the town clerk: Dec. 24, 1904.

ART. 6. Voted that Alfreton road be accepted as laid out by the selectmen, in accordance with a plan and description on file with the town clerk: Dec. 24, 1904.

ART. 7. Voted unanimously that the water commissioners be authorized and instructed to petition the General Court of 1905 for authority to issue additional water bonds to an amount not exceeding fifty thousand dollars.

ART. 8. Voted unanimously that the town treasurer be authorized with the approval of the selectmen, to borrow

on temporary loan, such sums of money as may be necessary to meet the appropriations made under articles one and three in anticipation of the collection of taxes for the year 1905, the same to be paid therefrom.

During the meeting Mr. William G. Moseley made a statement in reference to the will of the late Mr. Frederick P. Glover: noting that the will had been admitted to probate, and that he as executor had received a proposition from the contestants of the will, whereby the case can be settled and the town come into possession of the estate according to the conditions of the will.

Mr. Moseley then read the following letter:

BOSTON, January 11, 1905.

C. E. ALLEN, Esq., 6 Beacon St., Boston,

Dear Sir:—After a long conference yesterday with Mr. Bushrod Morse and John Glover, I am satisfied that the contestants of the will of Frederick P. Glover, would agree to a settlement by the terms of which each of the following heirs at law of Frederick P. Glover, namely: Almeda F. Spaulding, Louisa Dyer, Sarah Dyer, Louisa Chamberlain, receive the sum of five hundred dollars each, and the estate of Isaac T. Dyer the sum of five hundred dollars, making a total of twenty-five hundred dollars, in addition to the amount bequeathed by Mr. Glover by the fourth article of his will; and in addition to this, allowances and costs to counsel for the contestants of seven hundred and fifty dollars. This is nothing like the amount which the contestants have been contending for, namely: one half of the estate to be given to the heirs at law, and the other half to be held by the town of Needham in accordance with the provisions of the will, but I

think I can put this proposition through in case Mr. Moseley will consent.

Kindly bring the matter to his attention as soon as you conveniently can, and oblige

Yours very truly,

HIRAM P. HARRIMAN.

After reading the above letter the following resolution was passed unanimously:

Resolved that it is the sense of this meeting that the town accept the proposed settlement of the contest of the will of the late Frederick P. Glover as outlined in the letter of Hiram P. Harriman, Esquire, attorney for the contestants, who are the heirs at law, dated January 11, 1905, and that Wm. G. Moseley, the executor of said will is hereby requested to take all steps necessary to carry through the compromise under the terms set forth in said Harriman's communication.

At 10.21 P. M. it was voted that this meeting be dissolved.

Dissolved.

Attest: THOMAS SUTTON,

Town Clerk.

Warrant for the Annual Town Meeting

MARCH 6, 1905.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To George Twigg, a constable of the town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and town affairs, to meet at the town hall, in said town on Monday, the sixth day of March next, at six o'clock in the forenoon, then and there to act upon the following articles, viz:

Article 13. To see what action the town will take in regard to collecting and removing rubbish and waste from the dwellings of the town, on petition of T. F. Hanks and others.

Article 14. To see if the town will vote to lay a water main on Wellesley avenue from the corner of Central avenue to the Wellesley line, on petition of Stearnes W. Welsh and others.

Article 15. To see what action the town will take in regard to purchasing a new hose wagon as recommended by the committee on appropriations.

Article 16. To see what action the town will take in regard to providing a public recreation ground.

Article 17. To see if the town will sanction and approve the petition of the executor of the will of the late Frederick P. Glover, to the Supreme Judicial Court for a compromise with the heirs-at-law, and settlement of the contest over said will, or to act fully in relation thereto.

Article 18. To see if the town will vote to extend its water service on Greendale avenue from the junction of Broad Meadow road and Greendale avenue to the residence of Andreas A. Klauer, and appropriate money for the same, on petition of Andreas A. Klauer and others.

Article 19. To see if the town will vote to establish electric street lights on Broad Meadow road from Great Plain avenue to Greendale avenue and along Greendale avenue to Great Plain avenue, on petition of Louis Hasenfus and others.

Article 20. To see if the town will direct the water commissioners to extend the water main in Central avenue from near the house of David Simons to the culvert north of the house of Geo. M. Chamberlain or pass any vote relative thereto, on petition of Howard A. Crossman and others.

Article 21. To see what action the town will take in regard to providing additional school accommodations for Highlandville.

Article 22. To see what action the town will take in providing drain or some other means of relieving Lincoln street of surface water and appropriate money therefor, on petition of W. H. Stanton and others.

Article 23. To see if the town will vote to issue additional water loan bonds under and according to the provisions of chapter 107 of the acts of 1888 and all subsequent acts relating thereto.

Article 24. To see what action the town will take in regard to borrowing money in anticipation of issuing its water loan bonds.

Article 25. To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles and especially to act upon all the appropriations asked for or proposed by the selectmen or by any town officers or committees.

Article 26. To see if the town will vote to provide

street lights at suitable intervals on South street between Chestnut street and Charles River street and provide money therefor, on petition of John Blankenburg and others.

The polls may be closed at four o'clock p. m.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, unto our town clerk on or before said day and time.

Given under our hands and the seal of the town of Needham aforesaid, this twenty-third day of February, A. D. nineteen hundred and five.

Constable of Needham.

OFFICER'S RETURN

NORFOLK, ss.

NEEDHAM, Feb. 25, 1905.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham to meet as within directed, by posting true and attested copies of this warrant in twenty public places in said town more than seven days before the time of holding said meeting.

GEORGE TWIGG,
Constable of Needham.

A true copy of warrant and officers's return.

Attest: THOMAS SUTTON,
Town Clerk.

Record of the Annual Town Meeting

MARCH 6, 1905.

Pursuant to the foregoing warrant a meeting of the inhabitants of the town of Needham qualified to vote in elections and in town affairs, was held in the town hall in said town, on Monday, March 6, A. D. 1905, at six o'clock in the forenoon.

The meeting was called to order by the moderator.

Voted to omit reading the warrant.

The town clerk read the return of the officer who notified and warned the inhabitants.

ART. 1. Voted to accept the reports of town officers as printed.

ART. 2. Voted to proceed to ballot for town officers as follows, viz: One moderator for one year, one town clerk for one year, three selectmen for one year, three overseers of the poor for one year, one assessor for three years, one town treasurer for one year, one collector of taxes for one year, one auditor for one year, two constables for one year, one member of the school committee for three years, one water commissioner for three years, two trustees of the public library for three years, one park commissioner for three years, one tree warden for one year, and upon

the same ballot to vote "yes" or "no" upon the question: "Shall licenses be granted for the sale of intoxicating liquors in this town?"

In accordance with section 182 of chapter 11 of the Revised Laws, the selectmen having appointed Percy E. Wye, Henry D. Blackman, Geo. Gilbert Toone, and T. Robert Quinlan as ballot clerks, they were sworn to the faithful discharge of their duties by the town clerk.

Voted to defer action on all articles except article two for the election of officers, until thirty minutes past seven o'clock in the afternoon.

The ballots prepared for use at this election by the town clerk were then delivered by him to the ballot clerks and their receipt taken therefor.

Cards of instruction and specimen ballots were then posted as required by section 214 of chapter 11 of the Revised Laws.

The ballot box furnished by the commonwealth for use at elections was publicly opened by the moderator and shown to be empty. The box was then locked and the keys delivered to George Twigg, the officer in attendance.

The polls were opened at five minutes past six o'clock in the forenoon, and were kept open until thirty-nine minutes past five o'clock in the afternoon, when, as the meeting had previously voted, they were closed.

Record of Adjourned Annual Town Meeting

March 20, 1905.

Pursuant to adjournment, the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, met in the town hall in said town, on Monday evening March 20th, A. D. 1905, at 7.30 o'clock. William G. Moseley, moderator, in the chair.

Art. 3. Voted that the selectmen have full authority as agents of the town to institute and prosecute suits in the name of the town, and to defend suits brought against it, unless otherwise ordered by special vote of the town.

Art. 11. Voted that the sum of five hundred dollars ($500) be appropriated for the purpose of opening the ledge of rock on South street to provide material for highways.

Voted that the sum of three hundred and fifty dollars ($350), be appropriated to purchase a steam drill.

Art. 12. Voted, that all poll and personal property taxes shall be payable on demand, and all other taxes on or before the first day of October. Interest at the rate of one-half of one per cent. a month shall be charged on all taxes not paid on or before the first day of November. The collector shall use the means provided by law for

the collection of all taxes remaining unpaid after the first day of December.

(The above paragraph shall be printed on the tax bills.)

The collector of taxes shall have the same power which the treasurer would have when acting as collector; that the collector receive his compensation pro rata upon the collection of each fourth part of the full amount of the warrant.

If, in the judgment of the collector, in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection, and shall be held to pay the town treasurer the same, with any interest that may accrue thereon (except such sums as may be abated by the assessors); he shall pay the said taxes and interest from time to time, as he collects the same, and shall pay the full amount of all taxes committed to him, with the accrued interest, on or before the first day of April, 1907. The compensation of the collector shall be one per cent. on all taxes and interest collected by him and paid to the treasurer.

Art. 13. Voted that the subject matter of this article be referred to the selectmen with full power to act.

Art. 14. Voted that the subject matter of this article be referred to the water commissioners.

Art. 15. Voted that twelve hundred dollars ($1,200) be appropriated for a combination chemical and hose wagon to take the place of hose number two.

Art. 16. Voted that the subject matter of this article be referred to a committee of five to be appointed by

the moderator, said committee to report at the next town meeting. The moderator appointed Howard A. Crossman, Harold W. Loker, Howard A. Smith, William H. Carter and Frank W. Gorse.

Art. 17. Voted that the town sanction and approve the petition referred to in article 17 of the warrant, and that William G. Moseley, the executor named in the will of the late Frederick P. Glover, be and hereby is authorized and instructed to do all things necessary or expedient to carry out the proposed agreement for compromise mentioned in and annexed to said petition. In the event of a failure on the part of the heirs-at-law of said Glover and the contestants of said will to assent, on or before April 1, 1905, to the terms of said agreement, said Moseley is hereby authorized and instructed to do all things necessary or expedient relating to the prosecution of the appeal from the allowance of said will, and to do all other matters and things which shall be necessary or expedient in procuring a speedy settlement of all questions relating to said will.

Art. 18. Voted that the subject matter of this article be referred to the board of water commissioners.

Art. 19. Voted that the subject matter of this article be referred to the board of selectmen.

Art. 20. Voted that the subject matter of this article be referred to the board of water commissioners.

Art. 21. Voted that a committee of five to be appointed by the moderator to act in conjunction with the school committee, said committee to give at least one public hearing, to take into consideration the subject matter contained in this article and procure plans from different architects at no expense to the town unless adopted by the town,

and report at a town meeting not later than May 1st, 1905. The moderator appointed Joseph B. Thorpe, William Gorse, Edmund G. Pond, Henry Godfrey Jr., and William P. Bailey.

ART. 22. Voted that the selectmen be instructed to lay a drain on Lincoln street to carry away the surface water and that the expense of the same be taken from the highway appropriation.

ART. 23. Voted unanimously that the town issue bonds to the amount of fifteen thousand dollars ($15,000), to be dated the first day of September 1905, to bear interest at the rate of four per centum per annum, payable semi-annually on the first day of March and September in each year, said bonds to be of the denomination of one thousand dollars, to mature and be payable as follows: five thousand dollars each in the years 1933, 1934 and 1935, said bonds to be executed and issued under and according to the provision of chapter 107 of the acts of 1888, chapter 173 of the acts of 1905 and all other intervening acts relating thereto.

ART. 24. Voted unanimously that the town treasurer be authorized with the approval of a majority of the water commissioners to borrow on temporary loan such sums of money as may be necessary in anticipation of issuing its water loan bonds, the same to be paid therefrom.

ART. 25. Voted that of the amount appropriated under article six for the support of schools, two hundred and ten dollars be taken from the Dwight School Fund.

ART. 26. Voted that the subject matter of this article be referred to the board of selectmen.

Voted that the citizens' caucus called by order of the selectmen and heretofore approved by the town be dis-

pensed with, and the town clerk shall give sufficient notice as to the time for the filing of nomination papers and such other information as may be deemed necessary regarding nominations for officers to be balloted for at town elections.

Voted that the registrars of voters be required to hold a session from one o'clock till five o'clock in the afternoon of the last day fixed by law for filing nomination papers.

Resolved that the selectmen be requested to interview the management of the Newton and Boston Street Railway Co., with a view of obtaining more favorable accommodations between Needham, Brookline and Boston and at a lower rate than is now charged, also to interview the management of the Boston and Worcester R. R., with the idea of a branch from Newton Highlands to Needham and if necessary consider the expediency of an application to the railroad commissioners.

At 11.05 voted that the meeting be dissolved.

Dissolved.

NORFOLK, ss.

NEEDHAM, November 3, 1905.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham, to meet as within directed by posting true and attested copies of this warrant in twenty public places within said town seven days before the time of holding said meeting.

JOHN W. CRISP,
Constable of Needham.

A true copy of warrant and officer's return.

Attest: THOMAS SUTTON,
Town Clerk.

Record of Town Meeting

NOVEMBER 11, 1905.

Pursuant to the foregoing warrant, a meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held in the town hall in said town on Saturday, November 11, A. D. 1905, at eight o'clock in the afternoon.

The meeting was called to order by the moderator and the warrant and officer's return read by the town clerk.

ARTICLE 1. Voted unanimously that the selectmen be authorized to appoint a local Superintendent for suppressing the Gypsy and Brown-Tail Moth.

Voted unanimously that the sum of eight hundred dollars ($800) be appropriated for carrying on the work of suppressing the Gypsy and Brown-Tail moths under Chapter 381 Acts of 1905: to be paid out of any money in the treasury not otherwise appropriated

Resolved that it is the sense of this meeting that the board of selectmen be instructed to enforce the observance of its establishment of a building line on Chestnut Street, and that legal counsel be employed for that purpose.

At 9.07 p. m. voted that this meeting be dissolved.

Dissolved.

Attest: THOMAS SUTTON,
Town Clerk.

Recount of Ballots

NORFOLK, ss.

NEEDHAM, NOV. 10, 1905.

Upon petition for a recount of ballots cast November 7, 1905, for Lieutenant-Governor, the registrars of voters met in the office of the town clerk and recounted all the ballots cast for candidates for that office, in the presence of representatives of the Republican and Democratic town committees. No change was made. The former returns were found to be correct.

Attest: THOMAS SUTTON,
Clerk of Registrars of Voters.

The attention of parents is called to the law relating to the registering of births. The present requirements are as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents, within forty days after the birth of a child * * * * shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent * * * * who neglects so to do for ten days after the time limited therefor, * * * * shall forfeit not more than five dollars for each offence.

Attention of physicians and midwives is called to Chapter 29, Sec. 3, Revised Laws.

In accordance with the provisions of the law, the town clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

TOWN OF NEEDHAM, MASS.

ANNUAL REPORT

OF THE

Selectmen and Overseers of the Poor

FOR THE YEAR 1905

NEEDHAM
THE CHRONICLE PRESS
1906

Report of the Selectmen and Overseers of the Poor.

To the Inhabitants of the Town of Needham :

In accordance with long established custom the board of selectmen presents a review of the work of the several departments of the town government under its direction and control in the capacities of selectmen, overseers of the poor and board of health, together with a few suggestions as to the needs of the immediate future.

HIGHWAYS

The care and maintenance of the highways, town ways, and bridges, concerning as it does the comfort and safety of every individual, whether a driver of horses, automobiles, bicycles, or foot passenger, may be considered the most important interest for which this board is responsible, and the administration of this department is difficult and perplexing on account of the heavy traffic which our main thoroughfares have to sustain, and the demands of our people for the best construction both of roadways and sidewalks.

When it is remembered that the aggregate length of the streets and roads in our town exceeds forty miles, it will be understood that to meet the actual necessities required

for safety and convenience according to present standards with the limited amount of money at the disposal of the department, and satisfy even reasonable expectations is a problem which taxes the ingenuity and judgment of those in charge to the limit, and much that was hoped would be accomplished remains undone.

In this respect the experience of the past year is no different from former years.

Every year the voters start in bravely to retrench expenses, and end by voting an increase in every other line, and "take it out of the highways" notwithstanding the fact that this interest concerns the comfort, safety, and convenience of every individual young and old, rich and poor. The board reappointed Mr. David H. Livingston as superintendent of streets and desire to say that his services in that capacity have been highly satisfactory. The amount of work accomplished, the quality of the same, and the economy of management are creditable alike to the superintendent and to the men he has employed, and it is due to these men to say that no more diligent or faithful employees can be found on such work whether in public service or private contract.

By a special appropriation made early, we were able to get a supply of broken stone in reserve for use in the coming season, which is the realization of the recommendations made many years ago.

We venture to say that such reserve will be continued so that material can be placed on the roads in places where, and at a time when it will do the most good.

By the wise action of the town in furnishing the money, we have been able to establish and equip a stone crushing plant, that so far as it goes, for efficiency of operation is not excelled by any like establishment in this vicinity, and the quality of the material produced from the ledge on

South street is pronounced by experts as first class for use on roads.

In accordance with the vote of the town authorizing the same, the board entered into a contract with the state highway commission, on behalf of the town to build the state highway on Chestnut street, the same beginning and the Dover line and running about one mile to a point near the house of Mr. J. A. Sullivan. This work is yet unfinished, unforeseen and unavoidable delays having occurred, for which, however, neither the board or the superintendent of streets is responsible, being subject to the orders of the state highway engineer in charge of the work.

The building of the steam railroad across our town will of necessity cause a great excess of wear on the roads and add materially to the expense of repairs, particularly on certain cross streets which were never intended for such heavy traffic: this, together with the very open and unusual winter now passing, with alternate freezing and thawing of the surface of the roads, we fear will leave the ways in a very demoralized condition in the coming spring. Every effort should be made however to keep our roads from retrograding, remembering that parsimony and economy are not synonymous, and neglect is wasteful.

For details of the work of the year, we refer to the report of the superintendent of streets herewith presented.

BOARD OF HEALTH.

The duties of the board of health being devolved upon the selectmen by the failure of the town to elect such board, Mr. George Twigg was duly appointed agent of the board and health officer, he having filled that position satisfactorily for a number of years past.

All cases requiring attention and all complaints in that department have been referred to him for investigation and report. We believe that the duties have been well performed and congratulate the people of Needham on the fact that the town has been comparatively free from any ravaging epidemic. The few cases of contagious disease have been nearly all of a mild type, although we regret to say some fatal cases of diphtheria have occurred; still that much dreaded malady has not been allowed to spread beyond the place of its origin, and immediate measures were adopted to remove the suspected cause.

POOR.

As overseers of the poor, the board has endeavored to administer that department with due regard to the necessities of each case and the rights of the tax payers.

No unusual calls have been made for assistance, and applications for aid have been investigated, both as to the need of the applicant and the liability of the town for the expense. We believe that in most cases where application has been made for temporary assistance, it has been done with reluctance and as a last resort, and because no other way was open to them: such cases we must, (and in this expression we believe we speak for all the people of the town) and are glad to help. We must say however that in some instances, worthy parties, but unfortunate and out of health have been obliged to receive public aid because they have been denied the support of those whose duty it is, and who are amply able to furnish a home and all that belongs to the same.

We desire to say that the law will be rigorously applied to such cases.

FIRE DEPARTMENT.

The fire department has been maintained at its usual efficient standard under the management of the same board of engineers as last year.

Under the vote of the town a new combination hose, chemical extinguisher and ladder wagon was purchased, being built according to specifications approved by this board, and constructed under the direct supervision of our efficient Chief Engineer Kingsbury.

It is sufficient to say that it is an apparatus at once substantial, serviceable and complete with all modern improvements. The wagon has been placed in Station Two.

We wish to commend the personnel of our fire department to your appreciation, and when we look back upon the record of service and note the promptness of response to alarms, and efficiency of action in extinguishing fires, and remember we pay no tempting wages to attract to the service, but depend on the public spirit and civic pride of our young men for protection to our homes, shall we not all give them our active sympathy and moral suppport, and refrain from carping criticism and discouraging comment.

POLICE.

Police appointments and service have been the same during the past as in the former years. The peace and order of our town has been well conserved, the officers have been generally discreet in the performance of their duties and are able to control persons of disorderly tendencies without ostentatious display of authority. The excess of expense for the past year is owing to new laws in regard to certain offences in consequence of which parties arrested are put in charge of the probation officer, instead

of paying fines, which if paid would be used to defray cost of arrest and attendance at court.

IN GENERAL.

An agreement has been made with the New England Telephone and Telegraph Co. whereby the latter is required to construct a conduit in that portion of Great Plain avenue, between Dedham avenue and the New England R. R. crossing, and in Chapel street from Great Plain avenue to the telephone exchange through which to run its wires underground, thus removing the dangerous and unsightly collection of wires and huge poles which now disfigure the square. By agreement the company is required to reserve a section of the conduit for carrying the wires belonging to the town. Some years ago an effort was made by the board of selectmen under instructions of the town meeting to induce the railroad company to erect a bridge over its tracks at the point where the railroad cuts the line of what is now called High Rock street, so as to restore to public use a way which formerly led from South street at the point near the house of John A. Tilton to Central avenue near the house now occupied by Sumner B. Mills, but the company resisted and the project failed. The matter has again been brought to the attention of the board and it is suggested that the building of the new branch, and the location of a new station on the same, has so changed conditions, that there is a chance that the company may be induced by proper representation of the case, as bearing on its own interests, as well as that of the public to build a bridge at this time as a necessary and convenient approach to the new centre, from the west and southwest parts of the town, and incidentally to develop business for the railroad.

If this can be brought about by the cooperation of the owners of the land and the authority of the town, and the road be reopened, it will surely bring into use a large tract of land which is now practically valueless, and open up an attractive and useful avenue with a good prospect of adding to the wealth of the town, which is in itself desirable if prosperity is to be attained.

We have recently arranged for a conference with the management of the railroad, with a view to ascertain what may be done in the matter, believing that it is of great importance to the further development of the resources of the town, and that this is an opportune time to move.

The owners of the land bordering on the old way will undoubtedly give all the land necessary to make a broad avenue, one large owner having already indicated a willingness to give through his holdings, all the land necessary to make a street of whatever width the town may decide upon.

CONCLUSION.

In conclusion we may venture to suggest that our town has long since ceased to be a rural settlement, and has become a suburban community, a part of Greater Boston, with all the wants of dwellers near a great city. We can not return to the old conditions if we would, and must prepare for some kind of development. It is for the voters and owners of property in the town to determine whether that development shall be on the lines of an ideal town of which we have examples in our neighborhood, or on haphazard and go as you please lines, which tend to make a place undesirable for residences for the kind of people whose mode of life has an elevating and educating influence upon the younger generation.

With these considerations in mind let us approach our annual duty of providing the means for the conduct of the affairs of the town for the coming year with due regard to the necessity of avoiding unnecessary burdens and with like regard to the duty of providing for right development of a surely growing town.

TRAVELERS AND VAGRANTS.

Chapter 344, Act of 1905, provides as follows: Cities and towns which provide lodging for tramps and vagrants, shall require them, if physically able, to perform labor of some kind, in return for lodging and food furnished them; and the place in which such persons are lodged, shall be kept in such order and condition as may be prescribed by the state board of health, (approved April 26, 1905).

The operation of this law together with the regulations of the state board of health, requiring that towns which furnish lodging for travelers must provide a ventilated room, above the level of the ground, also a clean night-shirt and a full bath for every person furnished lodging has materially reduced the number of lodgers, as it will be seen by the record, that only 113 applications were received during the past year against 300 in 1904.

Respectfully submitted,

NORMAN MACKENZIE.

Report of Chief of Fire Department.

FIRE DEPARTMENT HEADQUARUERS,
NEEDHAM, MASS., Dec. 31, 1905.

To the Honorable Board of Selectmen :

GENTLEMEN ; I herewith submit my twelfth annual report, and the twentieth annual report of this department. The past year has been rather an expensive one on account of the numerous fires in the woods which have occurred. The number of fires and alarms have been double that of last year, also an increase of fires in buildings, which you will find in the statistics of alarms and fires.

ALARMS.

Total number of calls 55 against 25 last year.	
Bell alarms,	40
Still alarms,	12
Telephone calls,	3

ORIGIN OF FIRES.

Burning rubbish,	1
Came over from Wellesley,	1
Burning grass and brush,	4
Set by children,	3
Unknown causes,	16
Number of fires in buildings,	12
Number of wood and grass fires,	35
Total loss by fire for the year ending Dec. 31, 1905,	$6,258 64
Total insurance on property endangered,	19,945 00
Insurance paid on property damaged or destroyed,	5,053 94
Loss on property not covered by insurance,	700 00
Value of buildings,	17,500 00
Value of contents,	9,530 00
Loss on buildings,	4,192 54
Loss on contents,	3,266 40
Hours service at fires rendered by department,	1,739 1-2
Hours service of citizens,	76

At the present time the number of men in the department is 41. Hose No. 1 and Hook and Ladder 1 have been reorganized and both companies are in good condition.

The amount of hose in the department is 5,600 feet; 3,000 in good and 2,600 in fair condition.

During the year the Department laid 9,350 ft. of hose, and used 140 ft. of ladders and 112 extinguishers.

APPARATUS.

One new combination wagon was put in commission the past year, and is a valuable addition to the department. It carries 1,000 feet hydrant hose, 150 feet chemical hose, 30 gal. chemical tank under driver's seat, 2 pony extinguishers, one 23 ft. extension wall ladder, one 15 ft. extension roof ladder, 2 axes, one iron bar, and one plaster hook. The wagon is located at Station No. 2. The old wagon formerly used by that company is undergoing repairs and will be located on the outskirts of the town.

All other apparatus is in good repair with the exception of hose wagon No. 1, which should be replaced by a new combination wagon. I would recommend that a combination wagon be purchased to take its place, a duplicate of the one at station No. 2.

I would also recommend a set of double harness for Station 2. The harnesses now in use are single harnesses put together and are needed to go with the single wagons.

I would also recommend that some way be provided so the firemen in the Upper Falls and Greendale districts will know when an alarm of fire is rung in.

Respectfully submitted,

H. A. KINGSBURY.

Report of Superintendent of Streets.

To the Honorable Board of Selectmen:

GENTLEMEN:—I submit the following report of the street department for the year ending December 31, 1905.

Early in March, as soon as the weather would permit, the crusher was moved from Chestnut street and set up in Hewett's pit. The stone which had accumulated from three years' use of the gravel bank was crushed and piled up. 1200 tons were crushed, 400 tons were used on the streets and 800 tons are now at the pit ready for use.

When this work was completed the crusher was moved to a location on South street near the ledge leased from Wm. Jones, and set up in a permanent manner New bins with a capacity of 100 tons were built, and a new elevator installed.

The ledge was stripped of surface soil, etc., and the steam drill purchased by the town set at work.

This ledge will furnish an unlimited supply of even wearing road material, the continued use of which will result in better and more durable streets.

Careful figures have been kept, and the cost of getting out and crushing the stone is found to be 70 cents per ton.

GROVE STREET.

This street, two-thirds of a mile in length, has been in a worn out condition for several years. As there is no gravel

suitable for road use in that part of the town, the street was constructed of crushed stone from the Jones ledge on South street. The road bed was shaped up with stone and coarse gravel obtained from G. A. Alden, and the street macadamized with six inches of crushed stone and rolled with the steam-roller, making a smooth and durable road which should need no repair for a long time. 1460 tons of stone were used, and the cost of constructing the street was $2,248.

GREENDALE AVENUE.

By vote of the town $500 of the highway grant was expended in improving Greendale avenue. The roadbed from the foot of the hill near the residence of Wm. Harvey to Kendrick street was filled with stone and coarse gravel given by P. J. Reid. This was surfaced with good binding gravel from Hurd's pit, and rolled with the steam roller at a cost of $400, and $100 was spent in improving bad places in other parts of the street.

NEHOIDEN STREET.

Nehoiden street from Great Plain avenue to the top of Washburn's hill was surfaced with crushed stone from Hewitt's pit and rolled with the steam roller.

PLEASANT STREET.

Pleasant street was regraded and partially constructed with stone and gravel from Hurd's. The highway appropriation being exhausted, the street was not quite completed. It should be finished early the coming season.

STATE HIGHWAY.

The state highway commission authorized the construc-

tion of a section of state highway about one mile in length on Chestnut street beginning at the Dover line at the Charles river and extending toward Needham village.

The contract for building this road was taken by the town and work was started Aug. 1. Delays occasioned by unforeseen changes occurred. The tracks of the Needham and Natick street railroad which were to be removed from Chestnut street, were acquired by the Newton and Boston road and allowed to remain, causing a radical change in the plans and obliging the road to be built in a piece-meal manner which was not economical.

Work on the bridges for the new steam railroad which crosses the highway, made conditions such that it was impossible to complete that portion of the road until these bridges and the change of grade made necessary by the railroad were finished, so work was discontinued for the year. We have received from the state the sum of $4230, and have expended on the road $5082.19. During the progress of the work we have sold crushed stone to the amount of $300 and have used on the walks, and have now at the ledge 600 tons, worth at 70 cents a ton (cost of production) $420. It is safe to assume that the street when completed will cost the town but a small sum in excess of the amount to be received from the state.

SIDEWALKS.

A concrete sidewalk was built on Warren street between Great Plain and Dedham avenues. Several of the older walks were resurfaced, and granolithic walks were laid from the street to the side doors of the town hall.

Gravel walks were built on Hillside avenue near West street and on School street. The walks throughout the town were extensively resurfaced with fine crushed stone.

DRAINAGE.

The gutters on Lincoln street were lowered and the sidewalk raised, making a good channel for the surface water. A ditch was opened at the lower end of the street to allow the water which usually backed up on the adjoining property to escape to the low land beyond.

The drainage of Needham village is quite a serious problem. I believe it would be wise to have a drainage plan made by a competent engineer, so that whatever work is done would be part of a comprehensive system embracing the whole villlage.

BRIDGES.

The bridges throughout the town are in good repair, except Pierce bridge, which must be replanked this coming year.

The unusual hauling of heavy loads of material and supplies for the new steam railroad has damaged some of our streets to such an extent that a considerable outlay will be required to put them in good condition.

The following amounts were spent on the streets for teams and labor:

Grove street,	$2,248 50
Greendale avenue,	500 00
Nehoiden street,	84 00
Pleasant street,	216 00
Hillside avenue,	65 00
South street,	85 00
Fisher street,	47 00
Charles River street,	29 00
Forest street,	35 00

Superintendent of Streets.

Report of the Superintendent for Suppressing Gypsy and Brown-tail Moths.

To the Honorable Board of Selectmen :

GENTLEMEN :—I respectfully submit the report of the Moth Department for the year 1905.

The gypsy and brown-tail moths have become such a menace to vegetable life in Massachusetts, that the state legislature has found it necessary to pass laws providing for their suppression.

These laws, Chapter 381, Acts of 1905, provide that all cities and towns in the state shall appropriate certain sums for carrying on this work, these sums to be regulated by the assessed valuation of real and personal estate, taking the valuation of the year 1904 as a basis.

An expenditure of one twenty-fifth of one per cent. of the valuation of real and personal estate is required of all towns having a valuation of less than $6,000,000, all expenditure in excess of this to be reimbursed by the state.

For the purposes of this law the years 1905 and 1907 are to be considered as half years, making the sums required in Needham for this work, approximately, in 1905, $800; in 1906, $1600; in 1907, $800; if such sums shall be necessary for properly performing the work. From pres-

ent indications the infestation in Needham is so light that the expenditure here will come well within these figures.

The work in all infested districts is under the supervision of a state superintendent, who acts through a corps of agents and inspectors, thus keeping in touch with the work in all parts of the state.

Cities and towns are required to attend to the work of suppression on streets, parks and other public property.

Land owners are required to attend to the work on their premises. Failing in this the work is to be done by the city or town in which the land is situated, through an agent appointed for this purpose, the actual cost of the work to be paid by the land owner, in the form of a tax, but not in excess of one-half of one per cent. of the assessed valuation of the land.

Owing to unavoidable delays, the work in Needham was not begun until Dec. 1, 1905, thus losing the very favorable weather of November. We have been particularly fortunate, however, in having an unusually mild and open winter.

On account of the light infestation here, it has been necessary to employ but two men up to this time, with a one-horse team for the conveyance of ladders, pruners and other materials.

On the completion of the work on public property, private property will be inspected, if such inspection is considered necessary, and if found infested will be cleared and the expense charged to the owner of such property, as provided by law.

The gypsy moth infestation, so far as known, is heaviest in the northern part of the town, with perhaps the worst cases on Hunnewell street (which is quite generally infested from Hillside avenue to Central avenue), Reservoir street and several places on Webster street.

While these cases are the most serious, the only considerable parts of the town which seem entirely free, are the extreme southwestern and eastern sections. The brown-tail infestation, although not especially heavy anywhere, is quite general with the exception of the extreme southwestern section.

The methods of procedure against these pests are briefly as follows:

During late fall and winter the egg clusters of the gypsy moth may be found on the trunks and branches of trees, wherever there is a little shelter afforded by rough loose bark, hollow branches, etc., and even in empty cans, boxes, on the sheltered parts of rocks and other objects, near trees and shrubs. These egg clusters should be painted with the creosote mixture prepared especially for this purpose, and to be obtained at seed stores. On no account should they be scraped off or broken, as this results in scattering the eggs and failure to destroy them all.

During the same season the brown tails are wintering in the form of small caterpillars encased in nests composed of one or more leaves held together by a compact web on the ends of the branches.

While both of these insects may be found on nearly all kinds of trees and shrubs, the gypsy shows a preference for the apple and white oak; the brown-tail, for the pear and white oak.

From May to August the gypsy is in the caterpillar stage, and may be killed by tying strips of burlap around infested trees and killing the caterpillers which take shelter under it during the middle of the day, or by spraying such trees with chemicals prepared for the purpose. From April to June the brown-tail caterpillars may be killed by spraying.

The spraying is much more expensive than the winter

treatment of the egg clusters and nests, and we hope, by doing thorough work in the winter, to avoid it.

It may be necessary to burlap some of the trees where the gypsy moths are most numerous. All citizens should familiarize themselves with the insects in all stages of their development, both for individual and public benefit. I would suggest that land owners, especially in infested districts cut and burn all worthless brush and trees, thus making discovery and extermination of the insects easier in case of infestation.

Removal of brush and worthless trees from roadsides and other town property, would also greatly facilitate the work, although the town appropriation for such purposes is entirely inadequate for the accomplishment of much in this direction.

In case of infestation of private property, I would suggest that the owners employ some one familiar with the work of extermination, or place the matter in the hands of those employed by the town for the purpose, as persons inexperienced in the work are likely to leave many, thus causing a wider distribution the following year.

This is especially true of the gypsy moth. Persons noting the presence of any objects which they suspect to be gypsy or brown-tail moths in any of their stages, would do well to have them identified by some one familiar with the insects, as in this way cases of infestation which would otherwise escape notice, may be brought to light. "Bulletin No. 1," which is issued from the office of the State Superintendent for Suppressing the Gypsy and Brown-tail Moths, contains full information on this subject.

I have a number of these bulletins for free distribution to those desiring them. Respectfully submitted,

E. E. RILEY,
Local Superintendent of Moth Work.

Sixteenth Annual Report of the Water Commissioners

To the Inhabitants of the Town of Needham, Massachusetts:

The board of water commissioners herewith submit their sixteenth annual report, for the year ending December 31, 1905.

At the annual town meeting in March, Mr. William Carter was elected water commissioner for a term of three years.

The board organized by electing Mr. Edmund G. Pond chairman, and appointing George A. Adams, clerk.

EXTENSIONS.

At the annual town meeting in 1903, it was voted "that the water commissioners be and are hereby instructed to continue the water main in Central avenue from the terminus at the house now occupied by H. Morris Armstrong to the house of Joseph J. Macgowan." As the town failed to make an appropriation to do the work, the matter was necessarily postponed until this year, when the town voted to issue additional water loan bonds, which enabled us to make the extension as voted.

By vote of the town the following extensions were referred to the water commissioners, viz.:

In Central avenue, from the residence of David Simon to the culvert north of the residence of George M. Chamberlain.

In Brookside road from Central avenue to the Wellesley line.

In Greendale avenue from Broad Meadow road to the residence of Andreas A. Klauer.

In Wellesley avenue from Central avenue to the Wellesley line.

We have considered the petition for the above extensions together with several others received, and after ascertaining the amount of revenue likely to be received, as compared with the cost of making the extension we feel that we were justified in making only the following extensions in addition to the one voted by the town, viz.:

Forest street and Brookside road from Central avenue to the residence of Charles Lane.

Alfreton road from Webster to Conant street. In West street from Hillside avenue to the house of George M. Wragg, we have laid a service pipe large enough to supply the houses in that locality. For distances see superintendent's report.

RAILROAD.

Owing to the construction of the new railroad between the Woonsocket branch in Needham, and the Dedham branch in West Roxbury of the New York, New Haven & Hartford railroad system, several changes are in process of construction, an arch bridge is to be built under the railroad, where it passes through the Hicks Spring lot, so as to provide for our right of way and to protect the water pipes.

The intake building has been removed and replaced by one made of brick, with slate roof, making it fireproof. The supply pipes have been relocated and a new cut off wall built below the railroad, and a street forty feet in width will be made from Dedham avenue to and under the bridge to a point 150 feet north of the railroad.

Where the railroad crosses the water works reservation land, known as the "Colburn farm," a bridge is to be built over it, and a park road 30 feet in width will be constructed from Great Plain avenue to and across the bridge to a point 150 feet south of the railroad.

All the work is to be done by the railroad company under the supervision of the water department, according to plans agreed to by both parties.

BONDS.

The town voted at the annual meeting to issue bonds to the amount of fifteen thousand dollars ($15,000). Also to authorize the treasurer with the approval of a majority of the water commissioners to borrow on temporary loan such sums of money as may be necessary in anticipation of issuing the same. We deemed it advisable not to sell the bonds until next year, when the amount necessary for immediate use could be better determined, but have borrowed in anticipation of the sale of them.

Bonds to the amount of six thousand five hundred dollars ($6500) have matured and been paid during the year. The outstanding bonds mature as follows:

Auditor's Report.

The Auditor herewith presents his report for the financial year ending Dec. 31, 1905.

The accounts of Howard A. Crossman, collector of taxes, have been examined and I find that the amount of collections made by him and paid to the town treasurer, together with the abatements of taxes, agree with the total warrants submitted to him for collection by the assessors. His final warrant is for the year 1903 which closes his accounts as collector of taxes.

I have examined the accounts of John L. Twigg, collector of taxes, and find the amount of collection paid to the treasurer correctly stated, which together with the abatements authorized by the assessors leave the total amount of uncollected taxes as per his books for the years 1904 and 1905, $41,795.59.

The accounts of Levi Ladd, treasurer (who died Aug. 8, 1905) have been made up according to his books, which are now being examined by Mr. Augustus Nickerson, expert accountant, who has been engaged for this work, and his final findings on the accounts will show in the town report of 1906.

I have also examined the various accounts of Thomas Sutton, treasurer pro-tempore, who has opened a new set of books which now bring the town accounts into better line with approved methods. I find his accounts correctly kept, with the balances and outstanding checks agreeing with cash

on hand and in banks. All the notes and bonds paid during the year have passed through my hands and they have all been properly cancelled.

The six one thousand dollar ($6,000.00) school bonds in custody of the treasurer, belonging to the Dwight School Fund, I find as reported.

A statement showing the financial condition of each department at the close of the fiscal year, Dec. 31, 1905, is appended.

Respectfully submitted,

LEONARD DAWSON,

Auditor.

Report of the School Committee

Harmony and efficiency have generally characterized the school work this past year.

It has been especially gratifying to note the way our high school has been supported, that is, by the increased number of pupils attending; and the confidence it holds of the nearby towns, which has led them to send their children to Needham.

No additions have been made to the curriculum. The past year, however, called for a commercial teacher in the high school. This carried out the promise made to the parents of the entering class two years ago.

The new grammar school building may be completed for the spring term. Every room in this building will be occupied. This will leave the two upper rooms in the old building vacant. Later on, the eighth and ninth grades may be divided—as they have this year in the Kimball school—then only one room will be left for future expansion.

The committee felt warranted in putting two school buildings in first-class condition and accordingly $600.00 was spent on the Kimball school, and $136.00 on the Dwight school. This should be continued, one school building per year, until all have been thus treated. The Kimball and Dwight schools need painting exteriorally. However, the general condition of the school property is good.

The salaries paid are not exorbitant, and it is doubtful if they could be reduced, and the high standing of our schools still be maintained.

A kindergarten and other innovations undoubtedly would appeal to many, but the fact remains that we are already expending a liberal amount, and do not feel justified in pushing forward any new field of endeavor.

The citizens are probably aware that the cost of the support and maintenance of schools is greater in this town than in some others. We are neither extremely high nor ridiculously low. The town has been liberal, and the school committee feel that for the amount of money expended Needham has received *full value*

The report of the superintendent has the approval of the committee.

The committee recommends the following appropriation: 19,225.00, which with the appropriation of $4,100.00 made in January, will make our appropriation asked for the same as last year.

HORACE A. CARTER,
ADELINE E. HARRIS,
WILLIAM G. MOSELEY.

Report of the Superintendent.

To the School Committee of Needham:

By the liberal appropriations for the support of the public schools of this town more than eight hundred children are receiving good training for future usefulness. I fully appreciate my privilege of taking part in this inspiring work.

The High School.

The numerical growth of the high school and the extension of the commercial course called for the employment of an additional teacher for the current school year. Shorthand and typewriting now constitute a part of the commercial course and many pupils highly appreciate the opportunities that they enjoy.

During the present school year eleven pupils from other towns have been connected with the school. Nearly all of them come from Dover. That town pays to Needham the tuition of its third and fourth year high school pupils, but provides instruction in its own schools for all pupils of lower classes. An arrangement for the instruction of all Dover high school pupils by the town of Needham would apparently be for the interest of those pupils and of both towns.

The rigid requirements of the New England College Entrance Examination Board place in an embarrassing position all high schools whose pupils are admitted to college upon certificate. If

we wish to retain that privilege for our pupils, we must not only employ teachers of good attainments, but we must also employ a corps large enough to give to the pupils the attention that is absolutely necessary for their success. With its present number of pupils the Needham high school cannot spare one of its teachers. It is also at least an open question whether it is good policy to allow other towns, by the offer of salaries a little higher than our maximum, to secure our teachers and thus keep us continually training new teachers for usefulness elsewhere.

A few years ago the present superintendent called attention to serious conditions in our high school and expressed the hope that higher ideals might displace established traditions that were working to the detriment of the school. It is now proper to report progress. The tone of the school is higher, loyalty to it is more in evidence, better self-discipline prevails, better habits of study are noticeable, a good percentage of attendance is reported.

Several factors have contributed to this change. First of all, perhaps, is the fact that the school has remained long enough under the same principal to enable him to make his influence effective. The principal himself thinks that his encouragement and support of athletics has done much to elevate the school. The majority of educators apparently believe in properly directed athletics and when so directed evidence of the usefulness of athletics is not wanting. Baseball and football are the only sports to which our school has given considerable attention. In their contests with other schools our boys have exhibited considerable skill and commendable manliness.

Girls, no less than boys, need opportunities for healthful exercise well within the limits of their physical strength. Well may we consider the propriety of finding some suitable exercise for them. We can hardly afford the expense of larger towns which employ a physical director for girls, but we may be able to give them rational exercise under the supervision and control of their regular teachers.

Perhaps the most unfavorable feature in evidence at the high school is the prevalence of tardiness. Pupils and parents, in many instances, are not awake to the demoralizing influence of not being on time. No factory or mercantile house would tolerate such tardiness as teachers witness. I cannot too highly commend every teacher, in the high school and elsewhere, who contends energetically against this great evil; and I make an earnest appeal to pupils and parents alike to place punctuality in their list of the highest virtues.

Schoolroom Decoration.

The last annual school report announced that a committee of teachers was making arrangements for an exhibition of pictures and for entertainments to raise funds for purchasing works of art for the schools. The success of the committee was very gratifying. Every schoolroom in the town shared in the distribution of the pictures that were purchased.

As a result of a Boston Herald high school coupon contest our schools have also been benefited by several pieces of statuary. The nature of the contest is too well known to call for description in this report. Miss Thomas took charge of the Needham end of the contest. Other schools—especially the Kimball—aided the high school in making Miss Ellen Payne a winner. Miss Payne generously gave her prize to the high school. Of the six pieces won for the school, one piece—a bust of Hermes—was given to the Kimball school in recognition of the assistance it had rendered.

Following the good custom that previous classes had inaugurated, the class of 1905 left, as its legacy to the school, a fine bromide print of Augustus Caesar.

As the broadening and refining influence of art becomes more and more known and appreciated our people seem to be disposed to place the schools of Needham in a creditable position; and in looking forward to further generosity on their part, let us not forget to express our hearty appreciation of what they have already done.

The Evening School.

The number of persons who applied for admission to the evening school for the year 1904-1905 was considerably smaller than the previous year's attendance gave the committee reason to expect. The school was continued, however, on a close margin of membership, and was of great benefit to those who availed themselves of its opportunities. For the present school year it was not opened, the committee having no evidence that enough pupils would enter to warrant the necessary expense of maintaining the school. The town has shown its willingness to help all who wish to make up deficiencies in their elementary education and it is possible that hereafter a renewed interest will lead to the re-opening of the school.

Sight and Hearing.

Too much attention cannot be given to the physical welfare of the children entrusted to our care. In every public school boys and girls may be found whose defective hearing or eyesight, unknown to themselves, their parents and their teachers, deprives them of the full benefit of school life and in some instances gives them the appearance and reputation of dull pupils. A system of testing sight and hearing has come into use, which, at little or no public expense, enables teachers, under the guidance of a specialist, to discover such children and prepare the way for fuller expert examination leading to proper treatment and relief. I recommend inquiry into the feasibility of introducing the system here.

Changes of Teachers.

By comparing Table IV of the last annual report with the corresponding table for this year it will be seen that nine teachers then in the service of the town are no longer employed here. One teacher who began her service last September has also gone. An additional high school teacher is also employed. This year's tables therefore show the names

of eleven teachers whose connection with our schools covers less than one year.

No part of a superintendent's service is more important than the choosing of competent teachers to fill vacancies as they occur. The location of Needham, the enviable reputation of its schools, and the opportunities here given to teachers to grow accounts for the many changes of teachers that have characterized the administration of its schools for the last nine years. The choice of so many teachers, involving in the sifting of candidates, the writing of scores of letters and many visits to see the candidates at work elsewhere, makes heavy demands upon the time of the superintendent and often cuts into the time that he might well devote to the supervision, improvement, and development of the work already progressing in the schools of Needham. For a long time it has been evident to him that the continually increasing number of teachers and pupils and the ever-increasing exactions of the age in which we live make it impossible in two days per week —the time established at the first appointment of a superintendent, thirteen years ago, as a suitable period of service— to do all that he thinks should be done for the welfare of the schools. The extension of his service to cover half of every week would greatly increase the efficiency of his service. For obvious reasons he has not felt free to press this view of the situation; and he would be silent now, if duty did not seem to call him, even when his personal interest is involved, to be frank in expressing his opinion of what the schools need.

Conclusion.

In a well ordered business establishment good work goes on uninterruptedly and hardly attracts the attention of the outside world. But when the individuals connected with it— employers and employes—work at cross purposes, the outside world is soon made aware of it. In a factory the noisy machine is not always the machine that turns out the largest product. In many respects a school system is similar to a busi-

ness establishment and when least in the public gaze it may be doing its best work. It may also be like the machine which, when in good order, usually makes the least noise. The schools of Needham are not conducted on a spectacular basis, but because of many years of quiet, earnest work on the part of the school committee and those whom they have called into service, aided by the sympathy and financial support of the town, the schools have been placed on a basis of excellence which has not escaped the notice of disinterested observers from other towns. It is the purpose of your superintendent to live up to the ideals that have developed by his association with a committee intelligently devoted to the important work entrusted to them by a progressive town.

Respectfully submitted,

HENRY M. WALRADT,

Superintendent of Schools.

It is gratifying to note the increasing usefulness of the reference books of the library, especially by the young people in connection with their school work. The college students also have found the library a good place to come to for special reading.

During the year a number of interesting collections of photographs, loaned by the Library Art Club have been exhibited, each exhibit being divided between Needham and Highlandville reading rooms.

Respectfully submitted,

RIELLA J. DUNN,

Librarian.

TOWN OF NEEDHAM, MASS.

ANNUAL REPORT

OF THE

ASSESSORS

FOR THE YEAR 1905

NEEDHAM
THE CHRONICLE PRESS
1906

Assessors' Report.

In presenting the customary statistics connected with the annual report of the assessors, we desire to call special attention to the gain in personal property ($231,681). This was mainly caused by the fact that the personal estate of the late George A. Alden came to Needham this year, and was of material assistance in keeping the rate at a reasonable sum. Without this addition and the gain in real estate ($220,950) the large increase in the state, county and Metropolitan Park taxes would have forced it up quite a little. This advantage however will be temporary. Already the Alden heirs have distributed the larger part of the property and only one portion will be left to Needham in 1906. It is quite unlikely that there will be sufficient new real estate to offset this decrease in personal, so that the total amount to be raised by taxation must not exceed that of 1905 or the rate will go up. We now have the same rate as the city of Newton and are lower than Dedham.

The assessors feel that the time has arrived when the town should adopt more modern methods in conducting the business of this department. Little by little, improvements have been made, but the office is poorly equipped with the necessary plans etc. to do the work quickly and

accurately. Most of the towns and cities in our vicinity have adopted what is known as the "Block System." By this system all the land is shown by surveyor's plans, which being accurately drawn give the assessors a complete key to every piece of property in the town, and they are thus furnished with means to verify the clerical work, as a comparison of each plan with the valuation list would be very likely to show the omission of any estate. We would therefore suggest for the consideration of the town, the propriety of placing a small appropriation, say five hundred dollars, at the disposal of the assessors, to be expended for engineering expenses. We think this amount would give the project a good start, and then if the town followed it up with a like appropriation annually for a few years, we should have on file plans, showing every piece of land in the town, its dimensions, shape and quantity, and we could judge of the relative value of different pieces much better than now. We have a few plans which have been obtained from time to time but nothing showing the relation of one tract with another, which we should have if the Block System were in use.

Just a word as to making returns. It is surprising to find that a large majority of people think it the duty of assessors to ascertain the items of taxable personal property by inquiry or as best they may, whereas the law is explicit on this point, that every person shall, on or before a day to be fixed by the assessors, and not later than July first, bring in to them true lists of all their polls and estates (see Chap. 12 Sec. 43 revised laws.) These returns are not public property and their contents are known only to the assessors. A general compliance with this statute would practically do away with the dooming process, and failure to do so, only increases the number of

dissatisfied ones, for, try as we may to make a just estimate of a man's invisible taxable property we seldom satisfy either him or ourselves; but we are sworn to do our duty as the statute prescribes it, and if we err through no fault of ours then the burden must rest where it belongs, on the tax payer.

JAMES F. RYAN,
ALERED PARKER,
GEORGE W. TISDALE,

Assessors of Needham.
